

DKW PERMISSIVE-3.0 SHIELD

© [Copyright Holders], [Time range or year].

Permission is granted, without the requirement of payment, to create projects based on this software and any documentation files around it under the following requirements:

OWNERSHIP AND ATTRIBUTION.

- You **do not** claim that you made this software, but you may say you “forked” it. You **must** also clearly link to license you are following in the description..
- You provide a link to where you originally got the software if your platform allows it. If your platform does not allow links, you must put our name/surname, “[Copyright Holders]”, anywhere in the description.

VIRUSES AND WARRANTY.

YOU MUST NOT USE ANY COPY OF OUR SOFTWARE OR IMPERSONATE US OR OUR CREATION TO DISTRIBUTE VIRUSES! THIS IS VERY IMPORTANT!

An example of a “Virus” includes but is not limited to software that:

- Modifies or Deletes software outside of this copy of the software. But Deletion or Modification of software created by this modification of the IP is allowed.
- Collects data on usage without informing the user. A user is hereby defined as anyone that gets a copy of software without modifying it.
- Collects passwords and/or emails from accounts.
- Copies itself to other parts of the system.
- Copies itself to other computers in the network or otherwise does a Distributed Denial of Service (DDoS) attack to the network or a website. A DDoS attack is defined as an attack where multiple computers spam a server with requests automatically.
- Pretends to be non-virus software, but does any of the things shown above.

The software is provided "as is", without warranty of any kind, express or implied, including but not limited to the warranties of merchantability, fitness for a particular purpose and noninfringement. In no event shall the authors or copyright holders be liable for any claim, damages or other liability, whether in an action of contract, tort or otherwise, arising from, out of or in connection with the software or the use or other dealings in the software.

We, the creators, reserve the right to change the license at any time without prior notice. If we do this, changes **DO NOT** take effect for any projects made before the change of license, and you reserve the right to update your copy of the project **on your own**. If the license is changed, if you update your copy of the project to use all the software from **our** version, **then** you have to follow the new license.

If any later version of DKW PERMISSIVE exists on this **exact** repository:

<https://github.com/Darkwing14/Custom-Licenses>. You may use it. Any “later” version of DKW PERMISSIVE is defined as anything in the repository that starts with “DKW PERMISSIVE-” and contains a version number at the top larger than the version number of this copy. The version number of this copy can be seen at the top.
